Professional Summary

Final-year Software Engineering student at Sri Lanka Technology Campus with proven experience in project coordination, team leadership, and stakeholder management through IEEE Computer Society roles and academic group projects. Skilled in organizing workflows, tracking tasks, producing documentation, and ensuring timely delivery across multi-member teams. Combines a strong foundation in business analysis, software development processes, and data-driven decision-making with hands-on experience leading and coordinating real-world projects.

Education

Sri Lanka Technological Campus (SLTC) 2023 – 2027
BSc (Hons) in Software Engineering *GPA: 3.12*

St. Thomas' College, Matale Completed: 2020
Secondary Education — GCE Advanced Level (Technology Stream)

Christ Church College, Matale Completed: 2017
Primary & Secondary Education — GCE Ordinary Level

Skills

Project Management: Project Lifecycle Management, Task Tracking, Team Coordination, Agile/Scrum Methodology, Workflow Planning, Project Documentation & Reporting
Business Analysis: Requirements Gathering, Process Modeling, BABOK Fundamentals, Stakeholder Management
BI & Data Tools: Power BI, Excel, SQL, Google Analytics
Programming Languages: Python, JavaScript, Dart, TypeScript
Libraries / Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Tools / Platforms: Git, GitHub, GitHub Projects, Trello, VS Code, Google Colab, Overleaf
Professional Skills: Team Leadership, Time Management, Analytical & Problem-Solving, Cross-Functional Collaboration, Attention to Detail, Creative Thinking, Critical Thinking, Written & Verbal Communication

Projects

Impact of Generative AI on Teenagers' Cognitive Development and Critical Thinking | *Final Year Project (Ongoing)*

- Leading project planning and coordination across a four-member research team, managing task allocation, timelines, and milestone tracking throughout a structured three-phase project lifecycle.
- Developed research documentation including a mixed-methods study design, ethical compliance submissions, and pre/post assessment frameworks, ensuring clear reporting at each project phase.
- **Technologies:** Flutter, Python (Flask), Supabase, OpenAI API, Google Gemini API

SmartCare: Patient Readmission Prediction | *Academic Project* GitHub Live Demo September 2026

- Coordinated a four-member project team, managing task distribution across data preprocessing, model development, explainability analysis, and deployment phases to ensure on-time delivery.
- Produced technical documentation including a structured project report covering data pipeline design, model evaluation, and risk mitigation strategies for stakeholder review.
- **Technologies:** Python, Scikit-learn, XGBoost, SHAP, Pandas, Streamlit

OGBN-Arxiv GNN Node Classification | *Academic Project* GitHub August 2026

- Managed a five-member team project from planning to delivery, coordinating task assignments across model development, hyperparameter tuning, evaluation, and dashboard deployment phases.
- Contributed to technical report writing and ensured consistent documentation of methodology, results, and explainability analysis across all team members.
- **Technologies:** Python, PyTorch, PyTorch Geometric, Scikit-learn, Streamlit, Google Colab

Pixlore AI Studio | *Personal Business Project* Website August 2026

- Independently planned, managed, and delivered a full AI-driven fashion platform from concept to deployment, handling workflow planning, content production scheduling, and multi-platform marketing coordination.
- Managed end-to-end project lifecycle including UI/UX design, AI content generation, website development, and ongoing digital marketing campaign management.
- **Technologies:** React 19, Vite, TypeScript, Tailwind CSS, fluent-ffmpeg, sharp, Oxlint

Projects (Continued)

Utopia – Smart Town Management | *Academic Project* GitHub June 2025

- Coordinated a multi-member development team across mobile and web workstreams, tracking progress and ensuring consistent integration of citizen-facing features and backend services.
- Managed documentation and reporting across development phases, maintaining clear communication between team members and aligning deliverables with project requirements.
- **Technologies:** Flutter, Dart, React, Node.js, JavaScript

Certifications

- Business Analysis Basics — Simplilearn SkillUp
- Power BI for Beginners — Simplilearn SkillUp
- SQL (Basic) — HackerRank
- Software Engineer Intern — HackerRank
- Certificate of Appreciation — Vice-Chairperson, IEEE CS Student Branch Chapter of SLTC
- IEEE Membership — IEEE Student Branch of SLTC

Honors, Awards & Extracurricular

- Vice-Chairperson, IEEE Computer Society Student Branch Chapter, SLTC — 2025 – 2026
- Logistics Sub-Committee Head, IEEE CS Student Branch Chapter, SLTC — 2024 – 2025
- Founder, AI Content & Business Solutions — AI influencer models and promotional video/motion content across TikTok, YouTube, and Facebook
- Co-Chair, IEEE Codemania V5.0 — IEEE CS Student Branch Chapter, SLTC
- Coordination Team Head, IEEE Day 2025 — IEEE CS Student Branch Chapter, SLTC
- Program Team Head, Arduino Challenge 2025 / Decode Xtreme 2024 / Git Genius 2024 — IEEE CS Student Branch Chapter, SLTC
- Program Team Member, Colors Night 2024 — IEEE CS Student Branch Chapter, SLTC
- Marketing & Promotion Head, Master Designer — SLTC Media Unit
